#### Non-normative state acts as elements of issuance procedure

**Keywords:** State registration of: legal person, securities issue, prospectus, securities issue report, invalidation of state registration of securities issue; decision on: suspension of securities issue, voidance of securities issue  
The effect of state acts on establishment and termination of corporate relations has a number of reasons. How does the state regulate corporate relations? How does it affect their development? Is it possible to say that the balance between centralized and decentralized regulation of corporate relations is maintained? What abusive practices do participants of corporate relations encounter? How can they struggle with them?

#### Legal status of non-executive director on the board of directors of joint stock companies as provided in Russian and American legislation: comparative analysis

**Keywords:** Non-executive director; board of directors; joint-stock company; Sarbanes-Oxley Act

The concept of non-executive director is a relative newcomer in Russia. The nature, competence and its role within management of a joint-stock company have not been determined. The author analyzes legal status of non-executive director in joint-stock company in Russia comparing it with legal status of non-executive director in the USA where this notion has been successfully developed.

### KAYSIN, Dmitry Valerevich

Candidate of Legal Sciences  
LLM of New York University School of Law  
[kaysind@gmail.com](mailto:kaysind@gmail.com)

#### Foreign State Immunity: debatable issues

**Keywords:** State immunity, jurisdictional immunity, restrictive approach, functional immunity

The article describes development of foreign state immunity doctrine across the world. It outlines a particular role of the UN Convention on Jurisdictional Immunity of States and Their Property of 2004 in advocacy of the restrictive approach. The author highlights the dichotomy in regulation of foreign state immunity matters in the Russian Federation and proposes to endorse the approach accepted by the framers of the UN Convention and to favor legal equality between states and businessmen where they do business together.

#### Outlook for amending Russian currency legislation following Russia's accession to World Trade Organization

**Keywords:** WTO; currency regulation; currency operations; trade restrictions; quantitative restrictions

Accession of the Russian Federation to WTO implies amending local legislation and carrying out a step by step liberalization of trade and currency spheres. How has the accession to WTO impacted the currency policy of our state? Can it lead to partial loss of sovereignty in currency regulation? Does Russian currency legislation need to be amended in order to meet WTO requirements? What changes will be made to Russian currency regulation in the light of ongoing development of Common Free Market Zone legal framework?

[dmitry-nikitin-2011@bk.ru](mailto:dmitry-nikitin-2011@bk.ru)

#### Agreements on child's residence and exercise of parental rights as non-material family law agreements

**Keywords:** Parenting agreement; child's residence; exercising parental rights; spouses; parents

The article observes contractual regulation of relations between parents, in particular, the questions of establishing child's residence, and exercising of parental rights in case they live separately from the child. The author underlines the necessity to include liquidated damages clause into non-material agreements. According to the author there is disagreement between norms of substantial law and procedural law, which entails violation of rights and legitimate interests of family relations parties.

### SHCHERBAK, Natalia Valerievna

Candidate of Legal sciences  
Associate professor  
Lomonosov Moscow State University Law School  
Department of Civil Law  
[NVShcherbak@yandex.ru](mailto:NVShcherbak@yandex.ru)

#### Legal protection of non-conventional objects of copyright

**Keywords:** Software; databases; copyright; sui generis; related rights of database creator; constructive system; registration system; elements of form; elements of content; spin-off doctrine

The author compares software and databases with other objects protected by copyright: literary works and collective works. The article provides the answer to the most important law enforcement issue: which elements of software form and content are subject to legal protection from the point of the right to results of intellectual work, and which of them are not protected by copyright. Moreover the article observes spin-off doctrine, which is applied in Anglo-Saxon legal system, it provides for limited copyright protection of databases that represent a by-product of business activity.
